What is e-Care about?

e-Care - Open and Distance Education for Palliative Care at Home Erasmus+ Project aims to train the adults (caregivers working at hospital or hospices, nursing & senior homes patient family members & relatives who care at home etc.) through distance education. Necessary learning materials will be developed for the target group during the project period in order to achieve objectives of the project.

PROJECT COORDINATOR

KIRKLARELI UNIVERSITY

PROJECT NUMBER

2019-1-TR01-KA204-077109

Co-funded by the
Erasmus+ Programme
of the European Union

“Open and Distance Education for Palliative Care at Home”

Project Number:

2019-1-TR01-KA204-077109

Objectives:

- to provide adults with a high-quality learning about palliative care for every stage of illness/disease
- to increase the fundamental knowledge levels of patients' relatives who have to look after their patients
- to promote palliative care at home through increasing the qualifications of palliative caregivers
- to renew the knowledge of caregivers who work in hospices in the context of lifelong learning principles
- to offer comfortable and better quality of life to palliative patients

Project Deliverables:

In terms of intellectual outputs, six outputs will be developed during the project period.

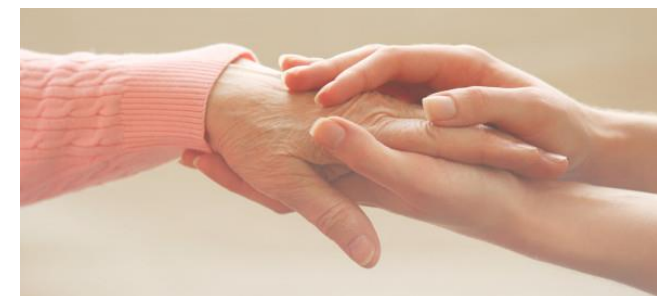

1. The curriculum of the course
2. The modules of the course
3. A digital platform
4. Series of educational videos
5. A guide book for trainers
6. A guide book for trainees

Expected Results:

Adults will be equipped with high quality education via this educational program, creating synergy with the cooperation of different institutions

The capacities of institution will develop through exchanging of ideas, gaining international experience and internationalization as well.

People will be able to access and register it from anywhere or at any time and receive the service. The qualifications of the employees in this area will be enhanced. Therefore, palliative patients will get more qualified service easily.

Who is it for?

e-Care Erasmus+ Project mainly aims to reach patients, patient's relatives, caregivers.

The specified target group:

Patients' family members and relatives who serve palliative care service at home

Adults who want to work in palliative care service in hospices or at home

Caregivers and medical staff who work at hospices, nursing & senior homes
